

Consultas avanzadas de elasticsearch

Introducción

Colección de snippets para consultas avanzadas, con elasticsearch

Filtros

Por:

- id,
- con rango de fechas
- formateo de fechas unixtime a formato humano
- Selección de campos

```
GET work-analyzers/_search
```

```
{
  "_source": ["status_code", "total_consumption_ok", "response_time", "message", "log_id", "datetime"],
  "query": {
    "bool": {
      "must": [
        {
